PROFESSIONAL SUMMARY

Brand and Product Designer with 17+ years building scalable visual systems across agencies, independent practice, and Web3 products. Translates brand strategy into digital experiences spanning identity systems, interfaces, and marketing assets, working from structured research and market analysis so that strategy and visual language stay connected. Has worked directly with US companies since 2019, including Neustack, Alliance Legal Group (New York), Advanced Therapy of South Florida, and Mater Design. Currently Head of Design for a Solana-based product company, leading design across a cross-functional team. Front-end capable with React, Next.js, and Tailwind CSS, with a strong focus on clarity, usability, and visual consistency.

CORE SKILLS

- Brand Strategy, Identity Systems, Naming, Brand Guidelines
- Art Direction and Creative Leadership
- Product Design for Web and Apps, UI Design, UX Design
- Design Systems and Visual Consistency
- Web3 and Crypto Visual Communication, Solana Ecosystem
- Landing Pages and Conversion-Focused Design
- Front-end Prototyping and UI Build
- Campaign Design and Marketing Assets, Social Media Design, Editorial Design
- Motion and Video for Brand and Campaign Work (After Effects, Premiere Pro)
- Research-Led Brand Discovery and Competitive Analysis
- Cross-functional Collaboration with Product, Marketing, and Engineering
- Developer Handoff and Design QA
- AI-Assisted Design, Prototyping and Front-end Workflows
- Remote Collaboration in Distributed Teams

PROFESSIONAL EXPERIENCE

Aerosol (Solana Ecosystem)

Remote | 2024 - Present

Head of Design | 2026 - Present

- Lead all design functions for a Solana-based digital products company, owning brand, product, and marketing design end to end.
- Directed the full redesign of the Burn and Claim platform, from information architecture and interface structure through final visual delivery.

Brand Consultant and Art Director | 2024 - 2026

- Built a brand system with sub-brand architecture and an organized asset library, so product, marketing, and ecosystem teams reach what they need without design becoming a bottleneck. It shipped in July 2025, and in that month transactions rose 50 percent, wallets 63 percent, and donations 196 percent over the previous month.
- Shaped landing pages, interface structures, and user-facing product experiences for ecosystem products including JobSkr and Spotlight.
- Partnered with leadership and engineers to translate brand and product goals into functional, user-ready design.
- Supported go-to-market communication and growth initiatives for crypto-native audiences.

Designer and Front-end Developer

Mollyverse (Independent Art and Product Venture), Remote | 2023 - Present

- Conceived, illustrated, designed, built, and shipped mollyverse.art end to end, a hand-drawn NFT universe on Solana spanning four collections and 420 pieces.
- Designed and coded the platform front-end in Next.js, React, and Tailwind CSS, including wallet-connected mint flows and collection browsing.
- Launched Molly Degen Punks, a 111-piece collection that minted out in full and continues to trade on secondary markets.
- Owned the entire go-to-market: brand, narrative, artwork, product, and community.

Art Director and Brand Designer

Independent Practice, Remote | 2008 - Present

- US clients since 2019: Neustack, Alliance Legal Group (New York), Advanced Therapy of South Florida, Mater Design. Dominican and international clients: INTEC, JMMB Bank, FAMA Collective, Ciudad Fiel, Canteras del Tropico, Marketing of Minds.
- Designed brand identity systems for startups and established companies, beginning each engagement with a structured discovery questionnaire and competitive market analysis.
- Led creative direction for campaigns, editorial projects, and digital assets across finance, education, hospitality, music, and industrial sectors, developing brand guidelines that hold consistency across print, digital, environmental, and large-format applications.

Art Director

Marketing of Minds (MoM), Santo Domingo, Dominican Republic, Hybrid | 2019 - 2023

- Led branding and campaign development for a multi-client portfolio across digital and print.
- Supervised creative execution from concept through final delivery, managing designers and external production partners.
- Designed the channel identity for Dinerology (JMMB), which won Bronze at the Effie Awards Dominican Republic 2023.

Art Director

McCann-Erickson, Santo Domingo, Dominican Republic, On-site | 2016 - 2018

- Developed integrated advertising campaigns for major national and international brands across TV, digital, and print.
- Contributed to concept development and visual storytelling across multiple channels.

Art Director

Room Grupo Creativo, Santo Domingo, Dominican Republic | 2014 - 2016

- Returned to the agency as Art Director, leading concept and art direction for client campaigns across digital and print, from idea through final production.

Art Director Intern

The Folio Club | 2014

- Art directed communications and the venue's on-site gallery of books and printed art.

Graphic Designer

Banco del Progreso, Santo Domingo, Dominican Republic | 2012 - 2013

- Designed graphic materials for internal communication and social media at a national bank.

Graphic Designer

Room Grupo Creativo, Santo Domingo, Dominican Republic | 2010 - 2012

- Designed campaign and brand materials for agency clients across digital and print.

SELECTED PROJECTS

Burn and Claim, Aerosol (Solana)

- Developed a sub-brand identity aligned with the parent ecosystem while maintaining product-level differentiation.
- Led the platform redesign and the product communication assets supporting it.

mollyllom.com, Personal Studio Platform

- Designed and developed a fully responsive bilingual (Spanish/English) portfolio site in Next.js, React, and Tailwind CSS.

marialunares.com, Independent Music Artist

- Led creative direction and visual identity, then designed and developed a custom website translating the artistic concept into an immersive digital environment.
